

Poured in Pennsylvania is a feature-length documentary about Pennsylvania's beer industry.

Run time: Approx. 90 min.

THE DOCUMENTARY EXPLORING PENNSYLVANIA'S CRAFT BEER INDUSTRY

From America's oldest brewery to taprooms changing the landscape of small towns across the commonwealth, GK Visual's documentary film, *Poured in PA*, illustrates the importance of this ancient—but newly redeveloped—beer industry and its impact on Pennsylvania.

Independent boutique video production company, [GK Visual](#), produced *Poured in PA*. This is the production company's second feature-length documentary on the beer industry. The first, [Brewed in the Burg](#), focuses on the Harrisburg craft beer community. It ultimately inspired them to try to capture the full state's beer story.

GK Visual is based in Harrisburg, Pa. and produces a variety of videos for many different clients, from political to corporate to nonprofit to media.
